25X1

Around 10 a.m. on 15 October 1953, an airfield with a E-W runway was observed northeast of Ostrowo (P 52/C 96) north of the railroad line to Kalisz (P 52/N 49) near the village of Weneja. The take-off and landing strip had a hard surface. Two single-engine biplanes with radial engines and 6 single-engine semi-high-wing monoplanes with radial engines, all of them [REDACTED] were parked at the field. The two aircraft types conducted air activity, apparently local flights at altitudes up to 200 meters, if there was clear weather and a light westerly wind.

25X1

Comment: For alleged location of airfield, see Annex. .
The reported location of the airfield appears rather improbable.
The report is forwarded with reserve.
